Tips to Consider

Job Seekers

Show Your Best Self

Upload your updated resume. This allows recruiters to get a quick snapshot of you. Fill out your profile, including a professional photo. Double check that all your information is up to date.

Make a Game Plan

Explore the booths even before the event starts. Once fully registered, you will be able to enter the Brazen platform, discover employers, and research open opportunities. Block off time on your calendar and pace yourself. Career fairs can be several hours long so attend the fair when you focus without interruptions.

Stay Organized with Chat History

As you have conversations with different recruiters, you will be able to access your chat history after the event as well

During the Event

Is your internet connection reliable?

Weak internet connections can create disruptions in audio and video. In order to address this issue, try using a hard-wired connection or switching to an alternative internet source.

Is your browser up-to-date?

Make sure you have the latest version of your browser. Brazen supports Chrome, Firefox, Safari and MS Edge browsers. For best results, we recommend Chrome.

Not receiving Event Emails?

Emails are sent from notifications@brazen.com. First, check to see if they are getting caught in your spam folder. Contact Emma if the problem persists by using the contact information below.
